

# Cottage pad

## TECHNICAL SPECIFICATIONS

CODE	DESCRIPTION	MM	INCHES	WEIGHT (LB)	MPA	UN/PAL
COT2020G	Cottage pad	100 x 500 x 500	4 x 19¾ x 19¾	122	50	24

### COLOR

Grey

### HYDRAPEL

Added directly to the mix of our drycast products, Hydrapel reduces absorption and increases resistance to freezing, thawing and weathering.

Protects against stains and enhances UV resistance for brilliant color that stands the test of time.

## TRUCS DE PRO

### Small buildings

The foundation block can be used to support a small building. Measuring 4" thick by 20" wide, the foundation block is the strongest available.

### Rental buildings

Are you a rental property owner or tenant? Use the foundation block to screw in your privacy screen and sunshade without making a hole in the building slab.

### Construction projects

Use the foundation block as a support slab for your construction projects. Support staircase columns and posts, stabilize stringers, create a stable, durable platform for your spa and attach children's play modules.

The possibilities are endless!
